360° Strain-less Neon NEW

10m long stretching, non-sag in long term

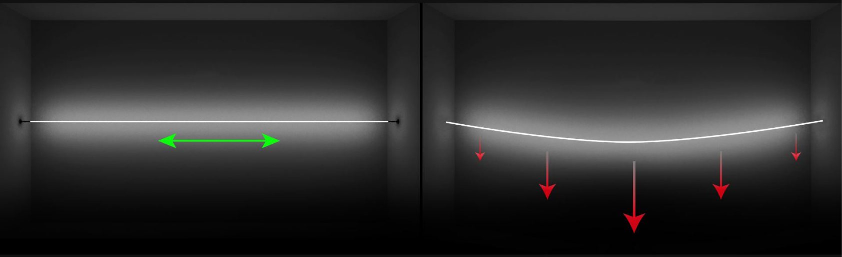
NNR13S

What’s strain-less neon?

NNR13S VS **Traditional Neon**

✓ Steel wire bears weight; lamp body stays non-sag.

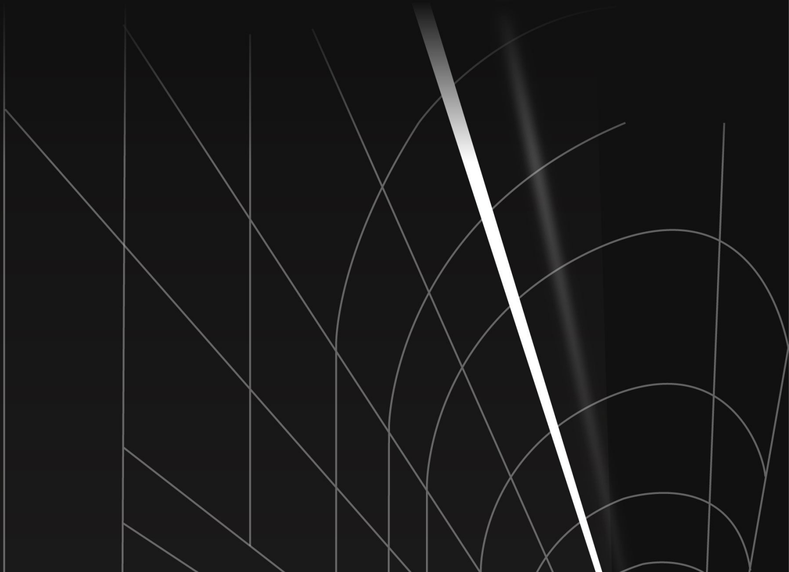
✗ Silicone bears weight, lamp body deforms easily.

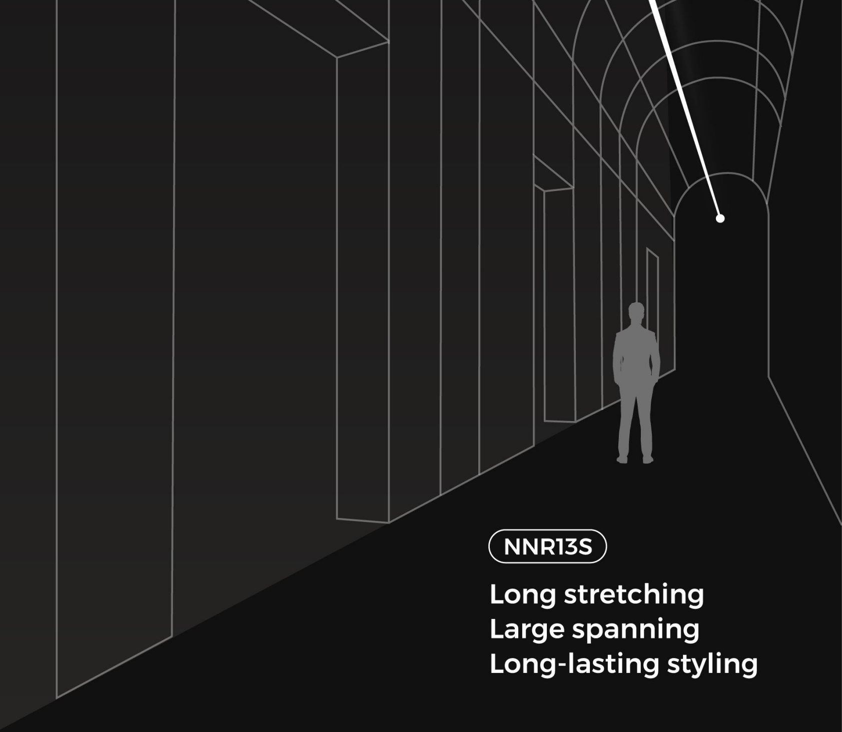


Why NNR13S can be straight in the air?

Steel wire built-in, integrated extrusion

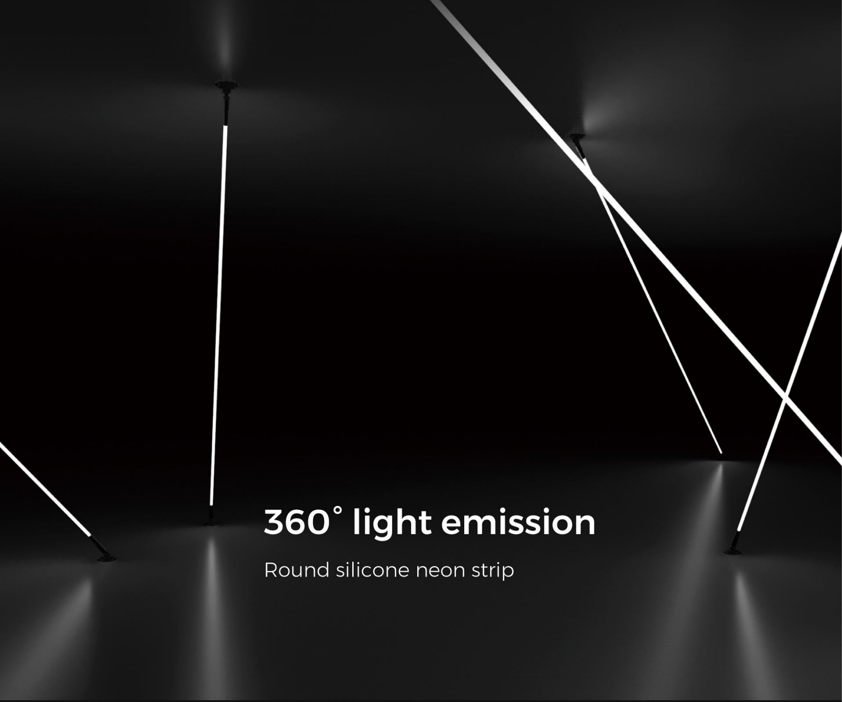
NNR13S VS **Traditional neon**





NNR13S

Long stretching
Large spanning
Long-lasting styling

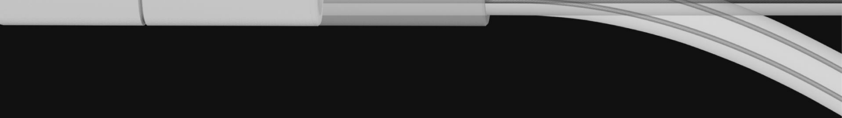


360° light emission

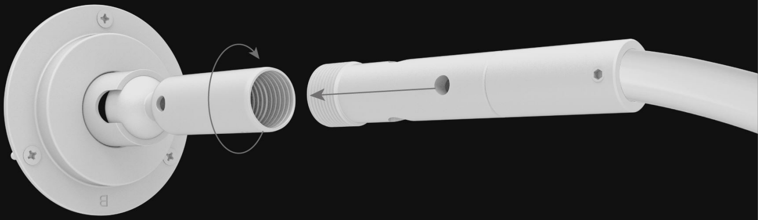
Round silicone neon strip

Structure of Basic Component

Structure of Basic Component



Rotate to assemble



All angles, flexible rotation
