# ARTS AND CULTURE

## ARTS AND CULTURE

COLORS is not only committed to LED linear lighting technology, but invests much efforts in art sector as the cooperation with various exhibition attested.

It aims to lead visitors into the charm and beauty of culture in the hope of better heritage for history and civilization.

ARC ZERO-ECLIPSE ①

UC MEMORIAL ②

LOVIVO GALLERY ③

HOLY ANSI SMART SHOWROOM ④

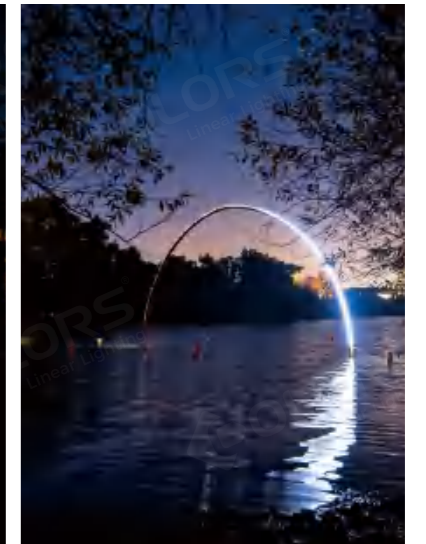

# ARC ZERO-ECLIPSE

Taiwan, China

Water and light are the 2 main elements in this project. The semi-circle light and its shadow on water together create an almost perfect round, fire-like lighting at nights. Suspended in the air, it blurs the horizon line, featured in great balance and integration. The perfect round reflects a pursuit of co-existence and harmony between human and nature. Visitors can communicate with the scene through this works, an innovative and interactive sightseeing experience indeed.

## PRODUCT MODEL

×

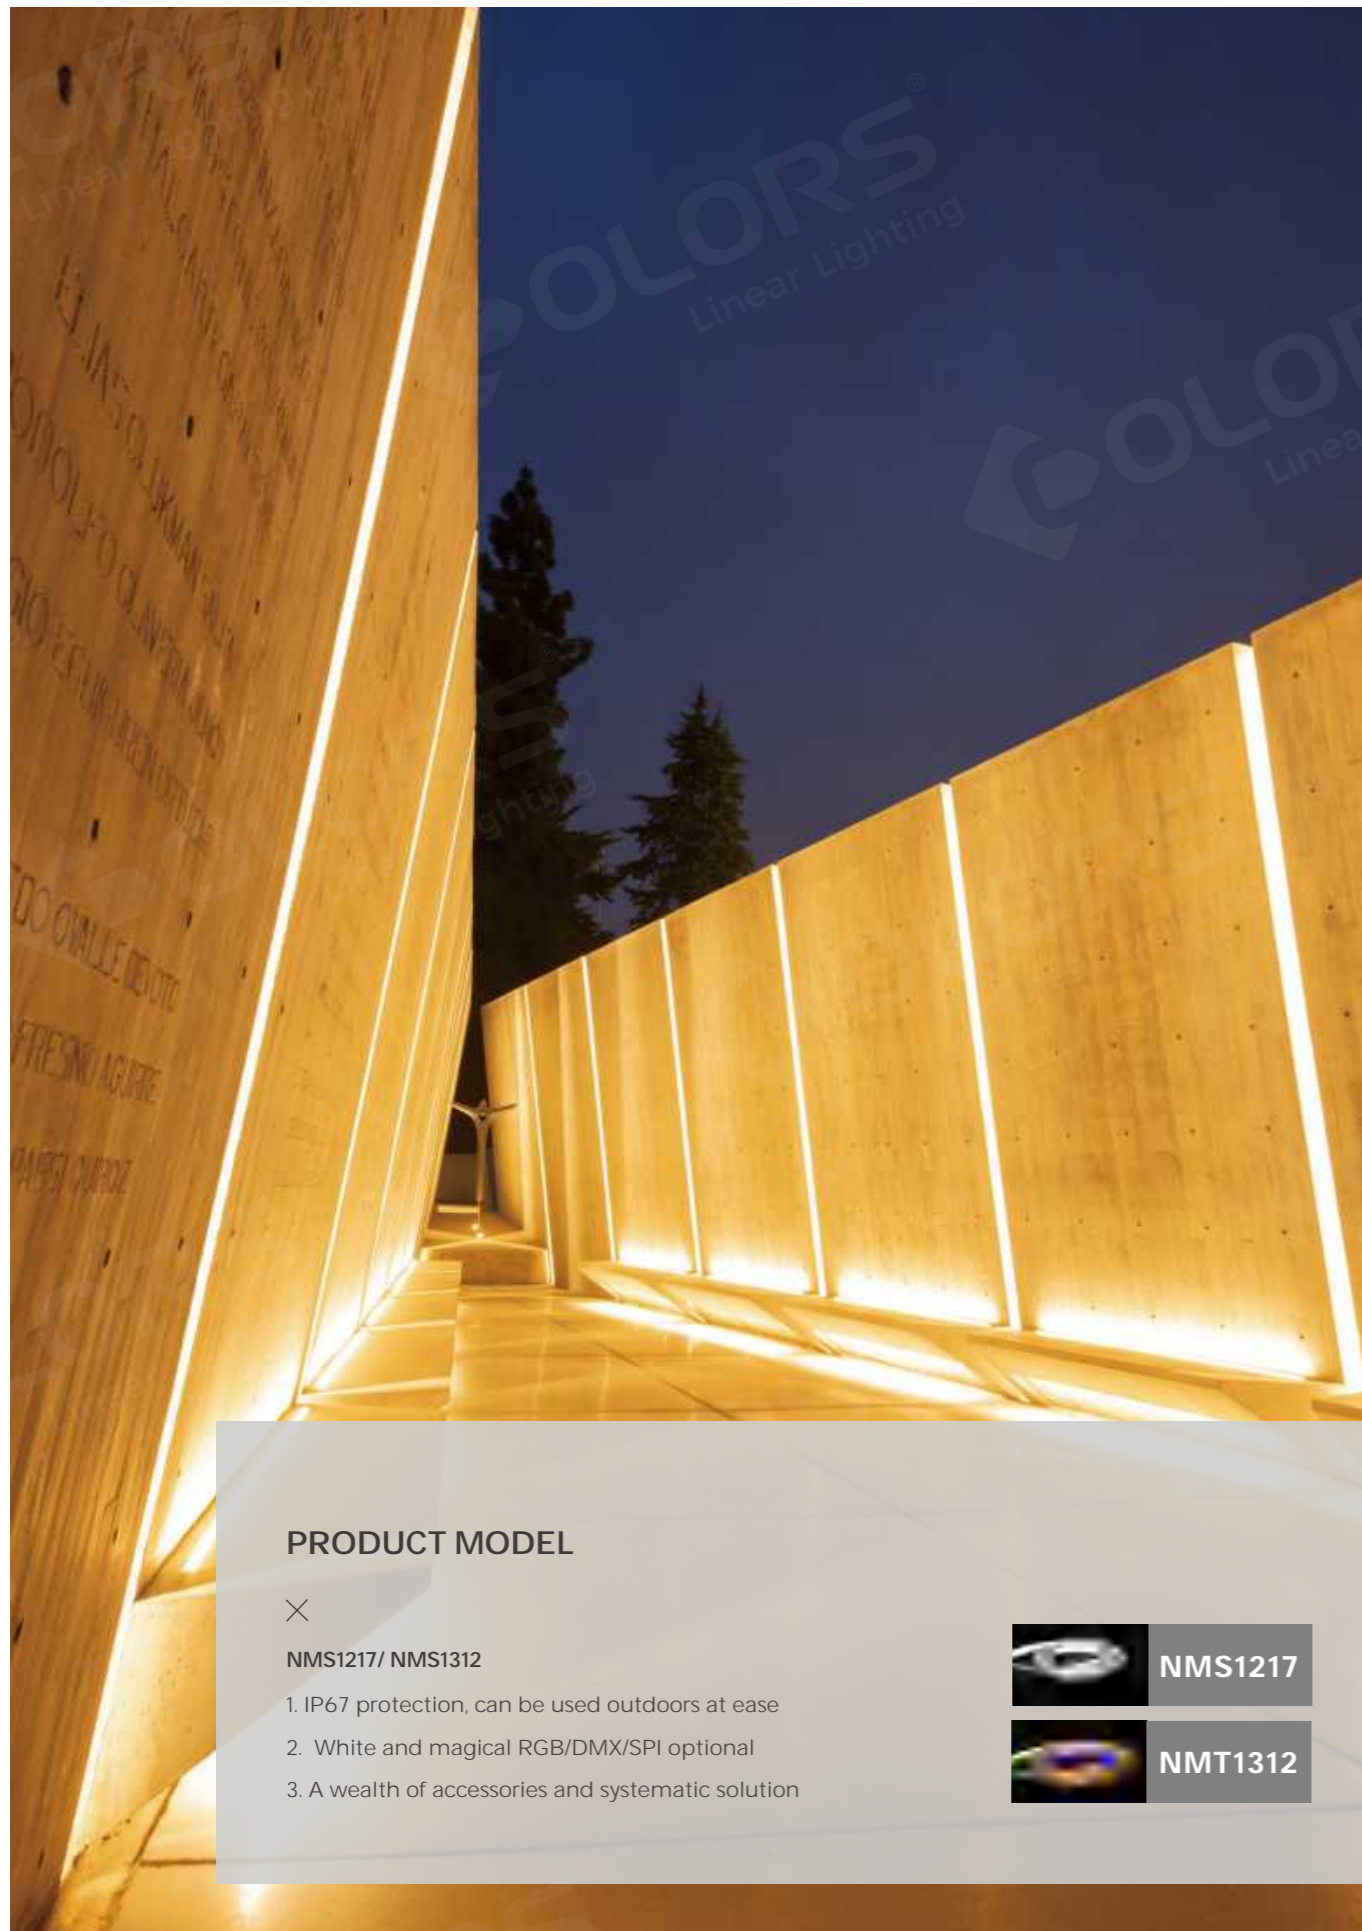

**NNT1615**

1. 10M driven by one end, easily stretched long
2. Arched neon for almost fully-lit effect
3. Tri-color extrusion, clearer cutting line for precise cutting

**NNT1615**

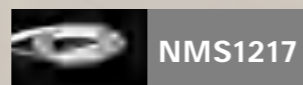

#### PRODUCT MODEL

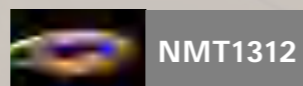

NMS1217/ NMS1312

- 1. IP67 protection, can be used outdoors at ease
- 2. White and magical RGB/DMX/SPI optional
- 3. A wealth of accessories and systematic solution

NMS1217

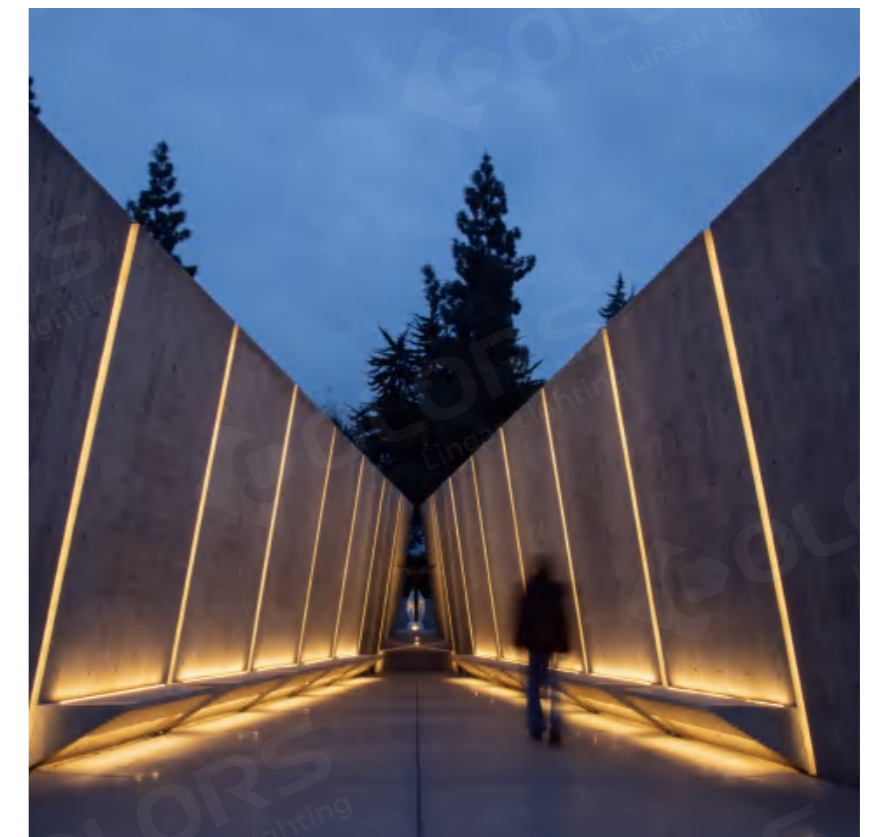

NMT1312

This project was in charge of the architect Gonzalo Mardones, one of the most important architects in Chile, and his idea was to highlight the concrete structure in a way that the light source would not be seen.

## UC MEMORIAL

Chile

# LOVIVO GALLERY

Shenyang, China

Lovivo gallery is designed for a technology-oriented concept space. 4000K light used inside emerge into the space. The ceiling adopts customized LS1911K luminaires, which is luminous in 3 sides and can achieve ultra-long splicing, brightening up and meanwhile increasing 3D sense of the space. Ceiling above the stairs adopts NM3D1515 neon to guide people to the upper floors. Ultra-slim profiles are used for delicate cabinet lighting here.

## PRODUCT MODEL

×

### LS1911K

1. 19mm wide, catering to mainstream thickness of gypsum board
2. Excellent surface treatment and good cooling design

### NM3D1515

1. Top and side bending
2. 15mm wide luminous surface
3. IP67, indoor/ outdoor application

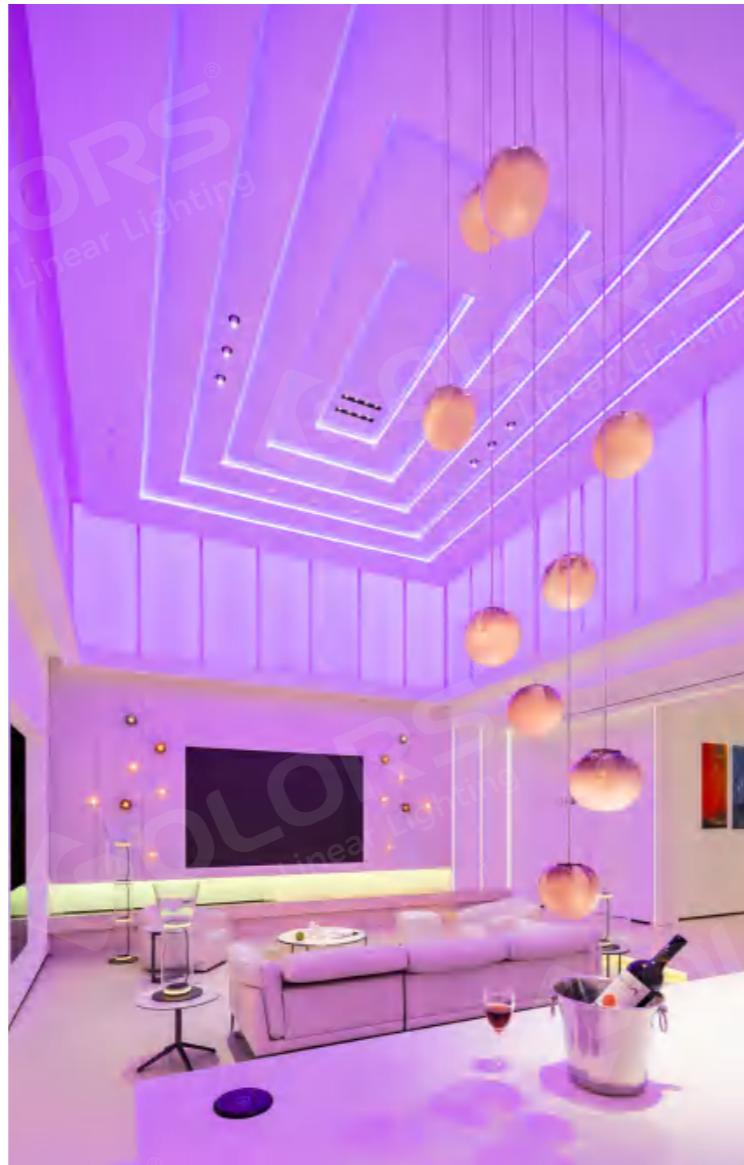

# HOLY ANSI SMART SHOWROOM

Henan, China

Holy ANSI Smart Showroom is for people to experience high-end smart sound, light, electricity and film. Lighting inside includes artistic lanterns, decorative luminaire other than the mainstream main lights, showing a warm, scientific and modern home light environment. On this basis, the use of intelligent and visual products make dimming, toning, background music and visual displays highly-adaptive to different scenes, a innovative breakthrough of traditional lighting design.

## PRODUCT MODEL

×

### DJ120

1. Cost effective and fast delivery
2. R2R production process, no soldering joint for whole reel
3. 120lm/W, complied to new ErP regulation

### D560

1. Max. 15m driven by one end 48V power
2. White or magically toning models optional

DJ120

# CENTARA UDON HOTEL

Udonthani District, Thailand

Centara Hotel is in a prime location, it's connected to the Central Plaza mall, Robinsons, and Tops supermarket. COLORS' D6140 LED strips, matched with profiles, were irregularly arranged on the facade, aesthetic and at the same time artistic.

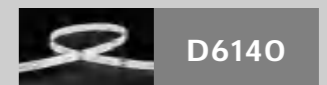

## PRODUCT MODEL

D6140

1. 4/8mm wide, super slim
2. Better to be in conjunction with profiles

D6140

# HYBRID CAFÉ

Malaysia

This project used arrays of light. It adopted LS1911K profiles with FD128 inside, which were evenly aligned and surface-mounted on walls. DF6 COF strips were used at skirting board and behind mirrors while NMS1217 side-bending RGB neon strips go around the whole column and wall bottom as a decorative element and at the same time functions as wall washing. D560RGB outlines the full circle and curves on ceiling, full of linear sense.

## PRODUCT MODEL

×

### DF6

1. Continuous dot-free light
2. Large light-emitting angle
3. Furniture matching & indoor outline

### FD128

1. R2R Chip strip, 180° light emission
2. No soldering joint for whole reel

# SAND BOX SAMUI

Thailand

This project adopted digital LED strip such as NMS1217-RGB, D8120 and D560-RGBW from COLORS, featured IP67, can be used at ease outdoors and alongside waterpool. Recessed on ceiling and stairs, they are full of light but profile-less in look.

## PRODUCT MODEL

×

### NMS1217-RGB

1. IP67 protection, can be used outdoors at ease
2. White and magical RGB/DMX/SPI optional
3. A wealth of accessories and systematic solution

### D8120

1. High illumination
2. Mini size for architectural outline

# RAMPA BAR

Ecuador

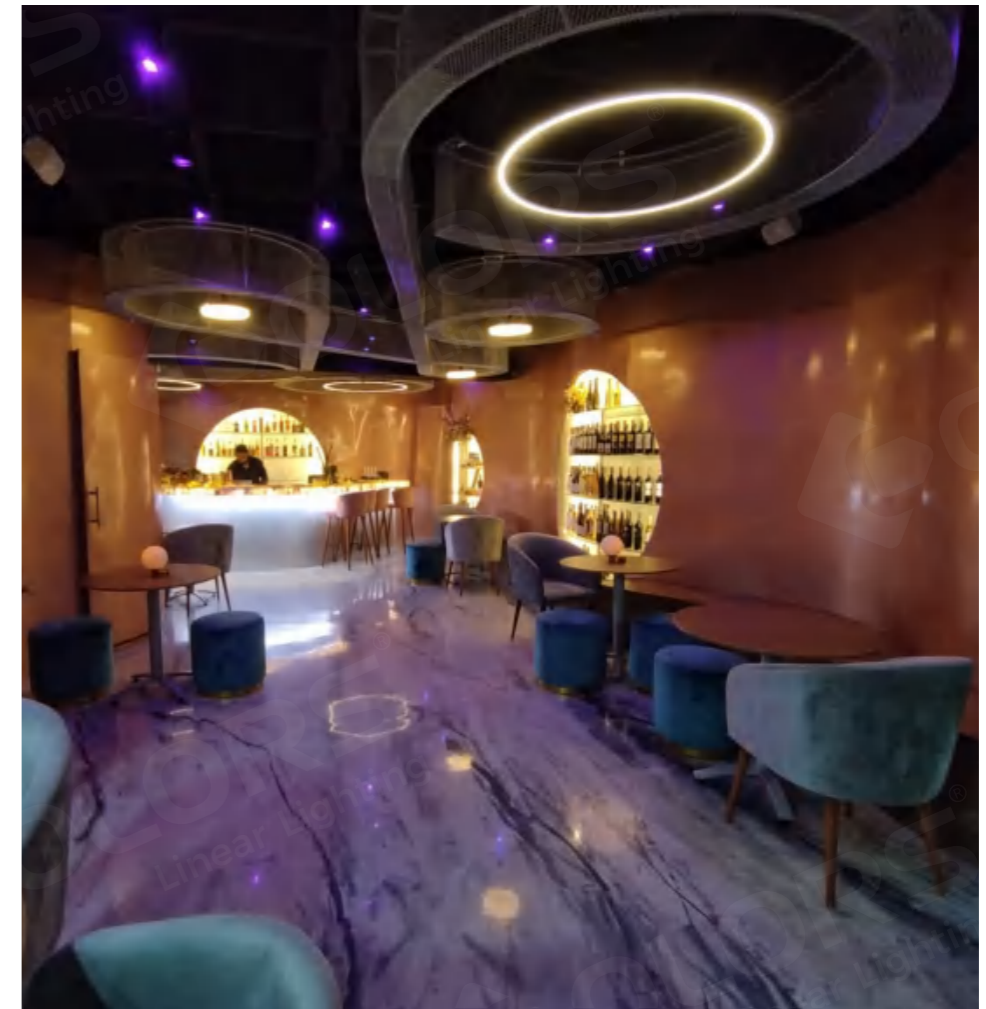

COLORS' infinite Curve AS3535 was used in this project. With easy splicing accessories, it was spliced in perfect round form and pendant as main lighting. The product supports ceiling and recessed installation as well.

## PRODUCT MODEL

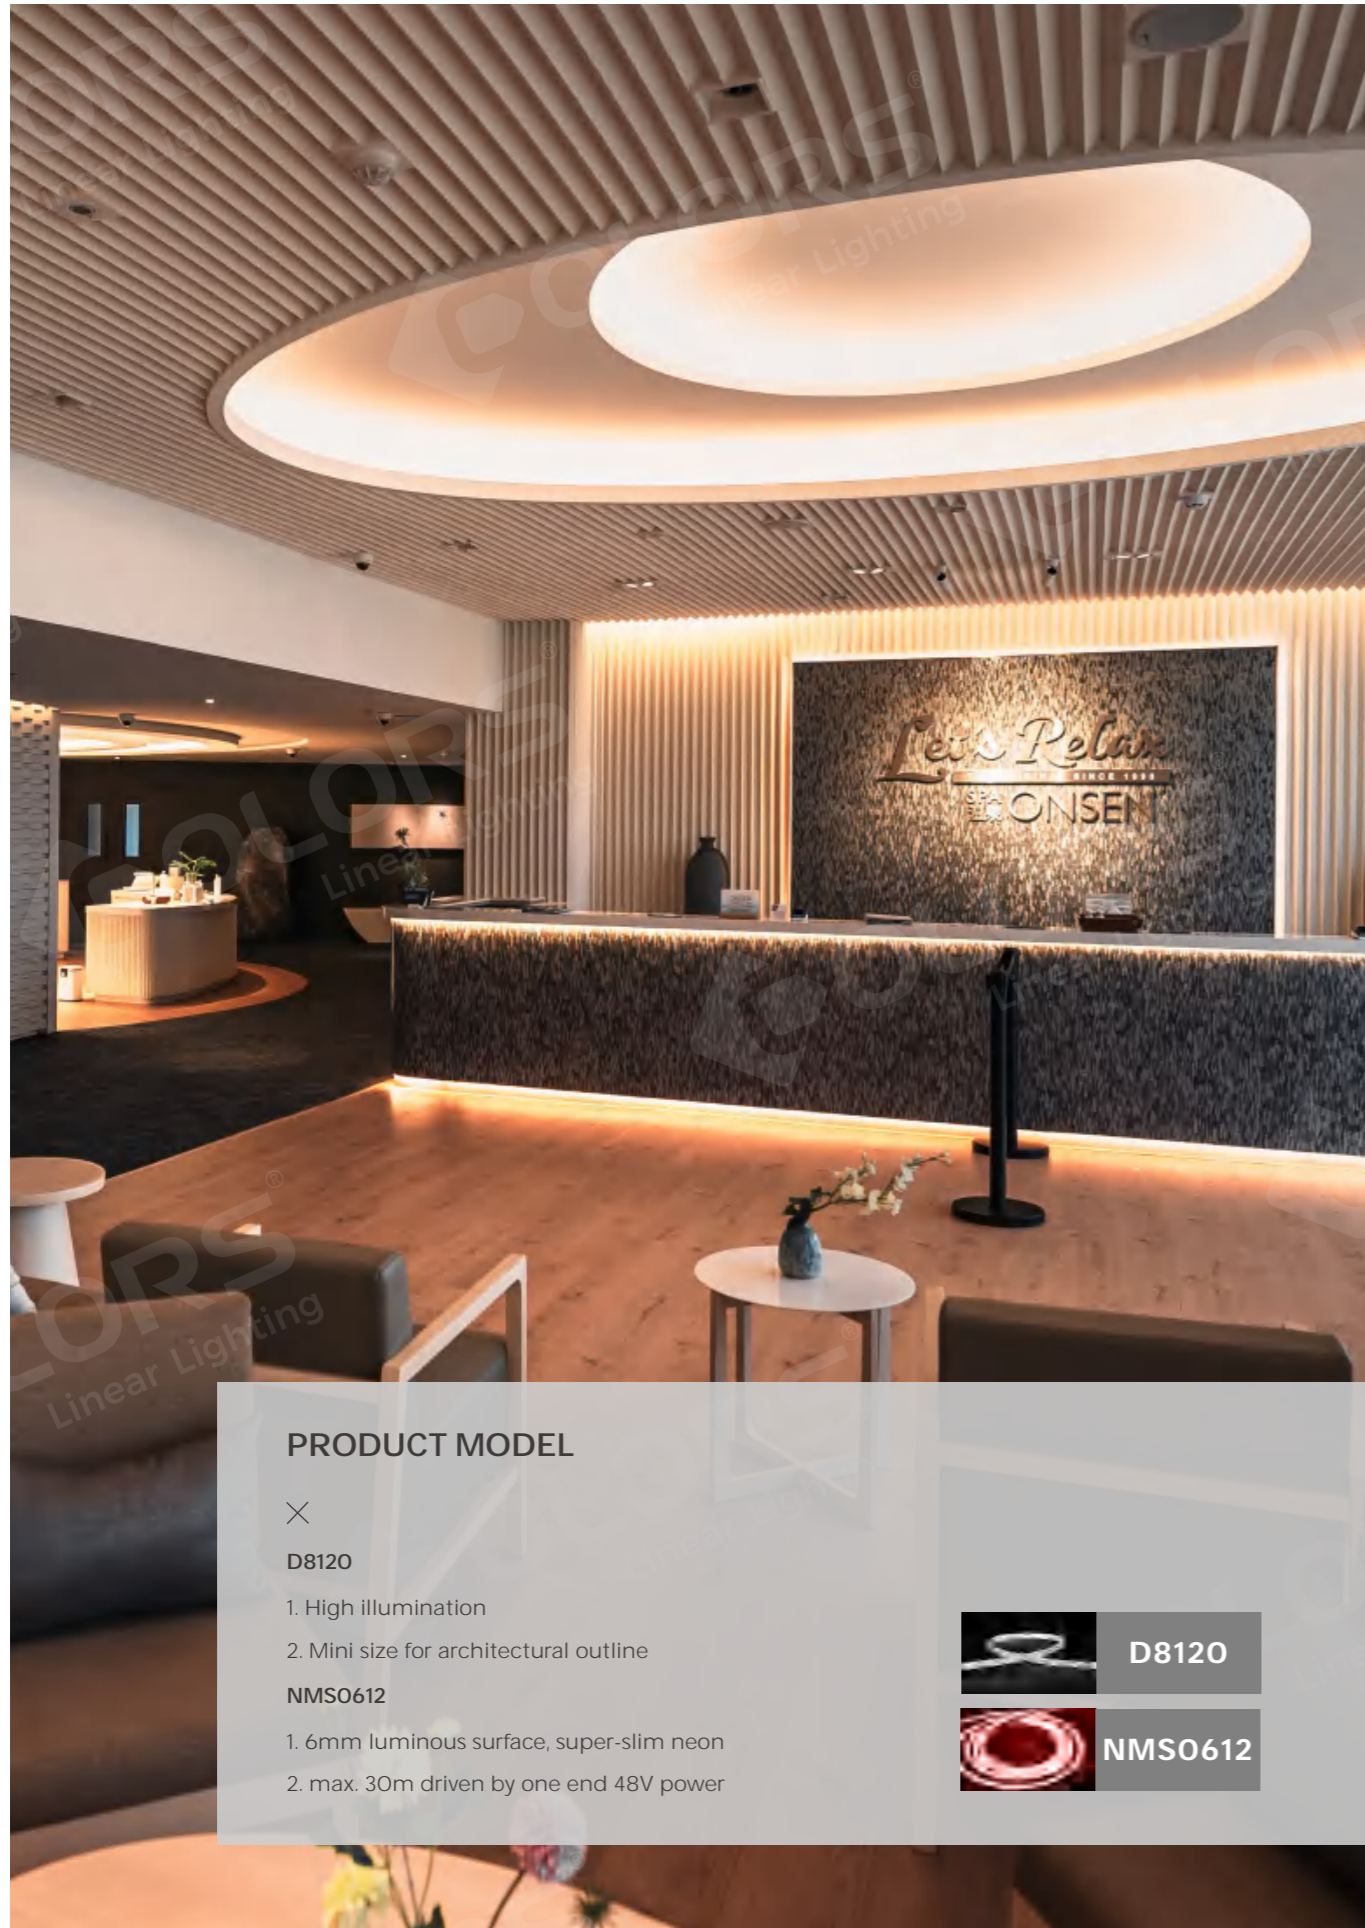

×

**AS3535**

1. 35mm luminous surface
2. Can be interconnected into curves with different radians
3. 20m/reel flexible diffuser, leak-proof splicing
4. White/ adjustable CCT/ RGB/ DMX optional

#### PRODUCT MODEL

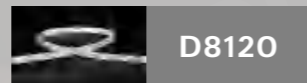

×

D8120

1. High illumination
2. Mini size for architectural outline

NMS0612

1. 6mm luminous surface, super-slim neon
2. max. 30m driven by one end 48V power

D8120

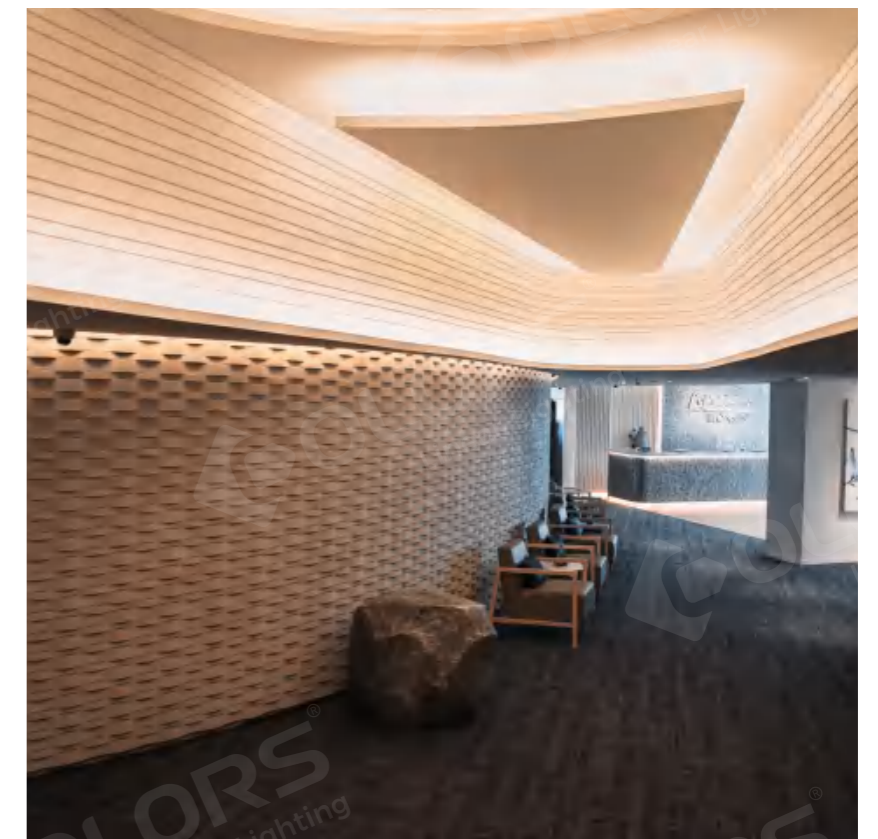

NMS0612

Let's Relax Onsen & Spa Pattaya offers peaceful and soothing vibes during a perfect treat and enjoying the dramatic sea views at the same time. With D8120 LED strip recessed at ceiling, it brightens up the whole space and at the same time highlights the various artistic interior designs.

## LET'S RELAX SPA & ONSEN PATTAYA

Thailand

# NEW SHOOTS ECE

New Zealand

Creating a positive and inspiring journey was at the forefront of the design brief right from the point of arrival through to the interiors and out into the play spaces. The interiors were to always have a connection back to nature staying in tune with the New Shoots' ethos.

In order to tailor a lighting design that both complimented and stayed true to the overall vision we worked closely with both client and architect. The lighting was to provide both functionality and an aesthetic in accordance with the brief throughout the internal spaces, affording a pathway of discovery for the child.

## PRODUCT MODEL

×

**AH5060**

1. 50mm luminous surface
2. Can be interconnected into curves with different radii
3. 20m/reel flexible diffuser, leak-proof splicing
4. White/ adjustable CCT/ RGB/ DMX optional

**AH5060**

# CARAPACE HOTEL

Thailand

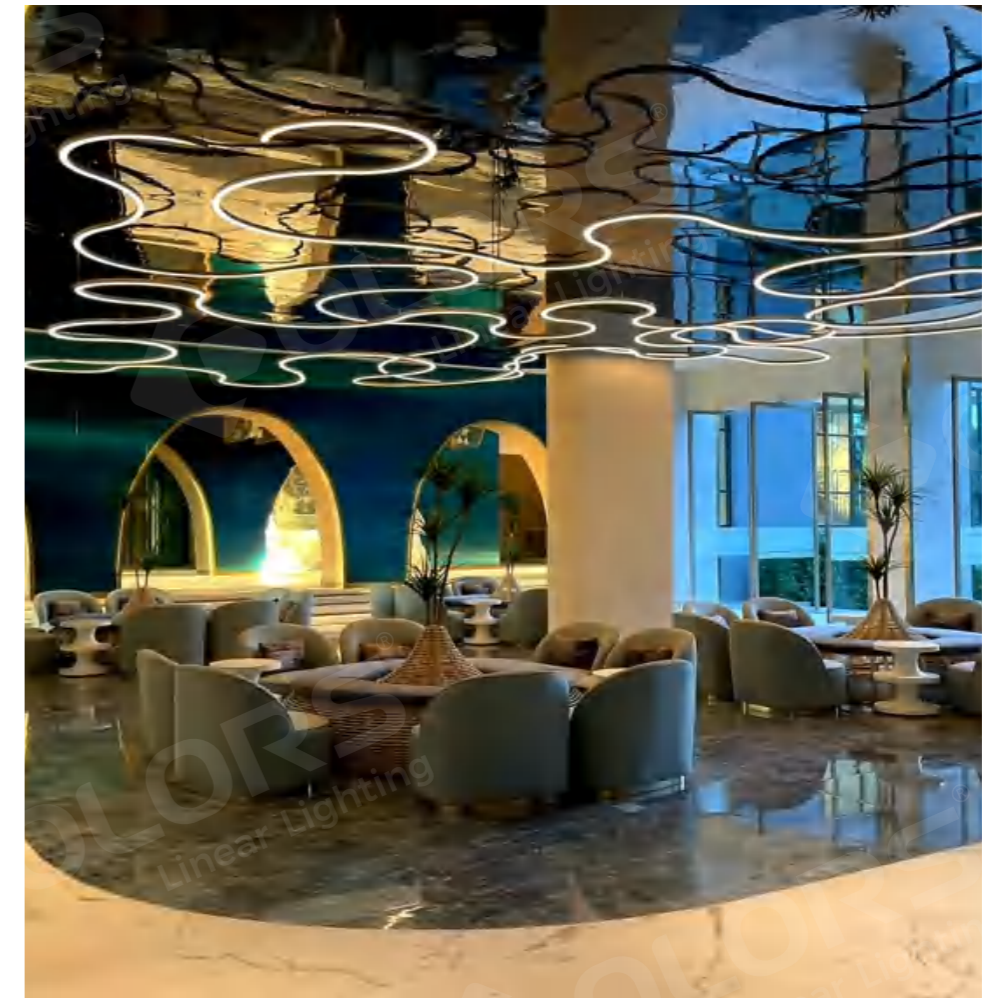

How to use lights to create a luxury and elegant hotels vibes? Here's an example. AS3535 series are bent to complex and ultimate radians to form unique styles. The led strip inside follows and perfectly fit with the curved profiles, lighting up without dark area.

## PRODUCT MODEL

×

**AS3535**

1. 35mm luminous surface
2. Can be interconnected into curves with different radians
3. 20m/reel flexible diffuser, leak-proof splicing
4. White/ adjustable CCT/ RGB/ DMX optional

# MISS SIWAWA FINE DINING RESTAURANT

Guizhou, China

The interior design centered on "round", the shape of brand products, which is extended to all design details in all kinds of artistic forms. The overall concept is being round, full and flexible. Lights in use replicate expectation, creating a homely dining environment.

## PRODUCT MODEL

×

DJ120

- 1. Cost effective and fast delivery
- 2. R2R production process, no soldering joint for whole reel
- 3. 120lm/W, complied to new ErP regulation

# PRENGO RESTAURANT AND BEER BAR

Slovakia

Uses NNR25 of customized lengths on ceiling. The interlaced round neon NNR25 offers a distinct lighting ambience. The same product adapts to different scenes, enhancing overall design and mood.

## PRODUCT MODEL

×

### NNR25

1. 360° uniform lighting
2. Ø13/18/25mm serial sizes
3. Free bending and cutting
4. 20m ultra-long/ RGB/ SPI models

# YUNHE YANDU

Shenyang, China

The D880 light strip is embedded in the wall and floor and ceiling, dividing the space with lines to form a distinct sense of demarcation, and connecting the space with lines to make every part of the design inseparable.

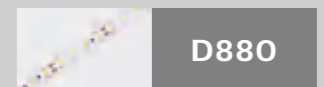

## PRODUCT MODEL

D880

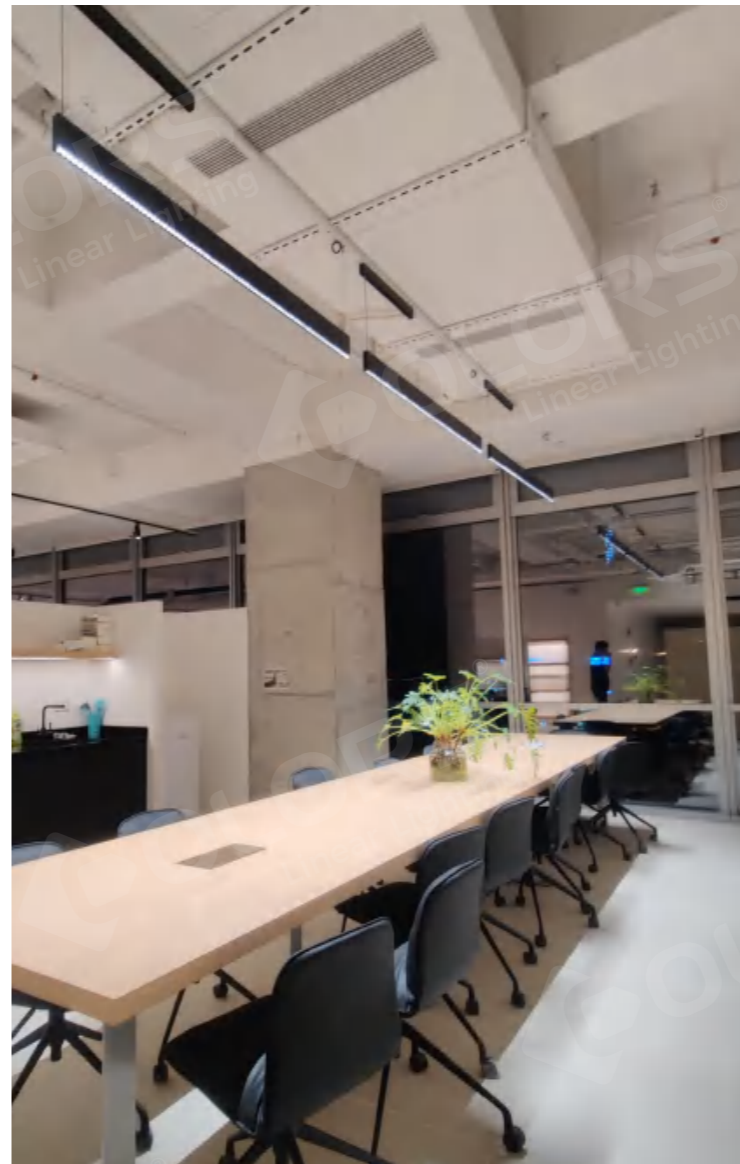

1. Luminous efficiency reaches up to 160LM/W
2. 1900-6000K white light optional

# RENATHING APPAREL SHOWROOM

Shenzhen, China

Renathing showroom is located in Shenzhen, covering 2000m2. It is designed in modern and simple style. The space is divided into clothing display area, shoes and bags display area, public area, office area and so on. The 3500K light strip is chosen as auxiliary lighting in the ceiling slot, so that the lighting effect presented on the garments is bright and comfortable, and the atmosphere is full of warmth and style. The edge of the ceiling uses downlight for accent lighting. The light is precise and soft, can enhance the texture of clothing.

## PRODUCT MODEL

×

### D8120

1. High illumination
2. Mini size for architectural outline

### DLE-GEC60L8/10

1. UGR<10, deep anti-glare

3. Compact and delicate appearance

D8120

DLE-GEC60L8/10

# MANGOSTEEN IMAGES ART CENTER

Shannxi, China

Located in Xi'an Film Studio, it was designed as a pure exhibition space.

Only a few colors are retained to maximize the sense of pure spatial existence. Constructivism is introduced into the design concept; the columns in the original structure are linked, combined and interspersed with "blocks" to elaborate the space, and the boundaries of the space are transformed into connections between multiple boxes. The lighting arrays make these blocks independent of each other. Different intensity of light is used to express the different shade of the inner building, making it more powerful.

## PRODUCT MODEL

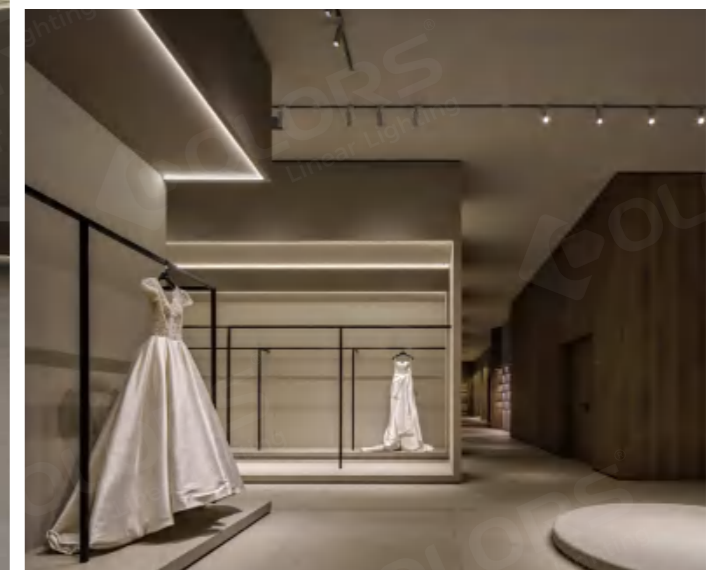

×

### DJ120

1. Cost effective and fast delivery
2. R2R production process, no soldering joint for whole reel
3. 120lm/W, complied to new ErP regulation

### NJT1010

1. Trim/ trimless version optional
2. Tri-color silicone extrusion, clearer cutting line

# CARPOLY ARTISTIC PAINTS

Hunan, China

The project is positioned as a high-end paint showroom. The overall idea of lighting design is to highlight the visual feeling of paint in the showroom with an immersive scenario experience. It used 2700K light as the ambient light to ensure the basic lighting of the space, 3000K wall washer lights up the façade, and 3500K is used to restore the real color and texture of the paint for the color card and sample area inside the cabinet.

## PRODUCT MODEL

×

### NJT1010

##### SKY-20

##### D8120

## FOSTER SHOWROOM

Zhejiang, China

It is a high-end showroom for woodwork customization jointly built by furniture brands like German LEICHT, Italian GIELLESSE, Italian POLIFORM. Our SKYLINE, stretched 20m long in space, shuttle freely in the walkway with minimalist design, outlining a soft and warm ambient light. Super-slim LED strips recessed in ceiling slot and back wall of living room, creates soft light and shadow changes, full of linear light charm.

# BANJIA YARD-HUAXI STORE

Guizhou, China

Banjia Yard is located at Huaxi Park in Guiyang City. The overall idea of lighting design is to create a warm dining environment. The overall style is inclined to Chinese style. The use of 3000K light therefore is to highlight the local characteristics in the cultural display area, different from the dining area.

## PRODUCT MODEL

×

### D8120

1. High illumination

DJ120

# XU JI SEAFOOD XI'AN WANXIANG STORE

Shannxi, China

Xu Ji Seafood's Xi'an Wanxiang Store is positioned as a high-end restaurant.

The designer drew a deep and dynamic "big background" for Xu Ji Seafood in the space of 960m<sup>2</sup> - magnificent coast stretches out, deep blue water flows deep, and northern city stands tall. On top of the vast background, the crowd is moving, laughter and seawater waving is intertwined, lights cast down gently. The ceiling is covered with lines and ripples, with silicone neon recessed at the overlap. The lights are gently splashed from above, adding a sense of expansiveness to the homely warmth of the space.

## PRODUCT MODEL

×

### NM3D1515

1. Top and side bending
2. 15mm wide luminous surface
3. IP67, indoor/ outdoor application

### NMS0612

1. 6mm luminous surface
2. 30m driven by one end (48V powered)

# THE BIG TREE RESTAURANT

Shenyang, China

The overall design is based on the theme of trees, with simple white tones and various green plants. The ceiling design is layers of ripples, and the light strip is hidden at the top for indirect lighting, with no light in sight. The use of 4000K light combine with white material bringing a comfortable and soft sense.

## PRODUCT MODEL

×

**D898**

1. High illumination
2. Mini size for architectural outline

# TAIWAN YUM YUE ESTATE

Taiwan, China

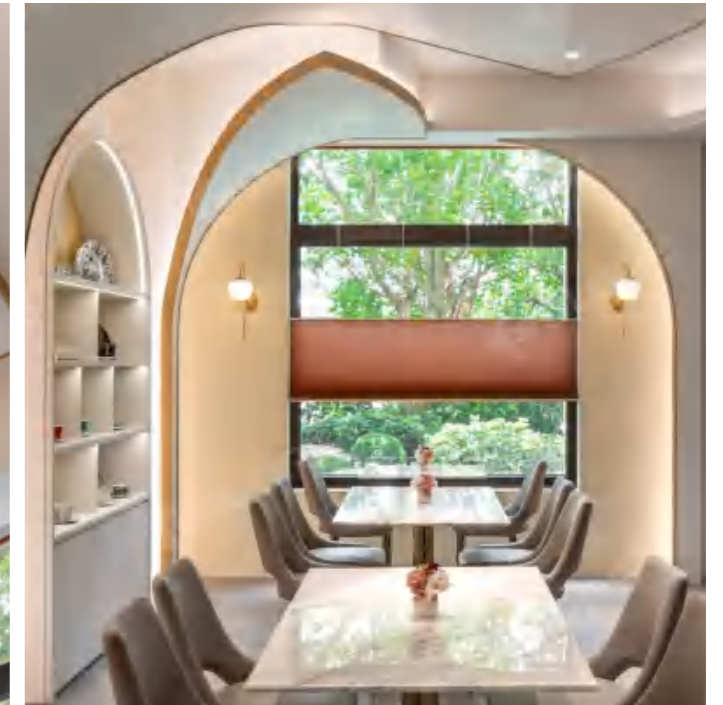

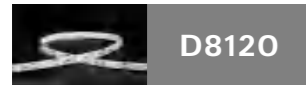

The overall structure of the semi-arc ecology, milk beige color is the main tone, the design simplifies and refines the inner architectural techniques of Chinese elements, unique space shape. The light is hidden in the building structure, soft and bright atmosphere, calm and soft atmosphere, more comfortable and permeable visually, in this space there is not only the fragrance of food, but also the breath of sunshine, the atmosphere of art. The space not only has the aroma of food, but also the smell of sunshine and the atmosphere of art. The space is functional while giving more new forms and injecting a fresh artistic experience.

3. A wealth of accessories and systematic solution

# HEFEI HOTEL

—  
Anhui, China

Hefei Hotel, established in 2020, is located in Hefei, Anhui Province, China. The project uses NMT1312 embedded in the art-shaped ceiling, outlining a circular pattern in the ceiling and giving the whole space a sense of lines.

# CEREAL BAR

Shanxi, China

The bar is located at a commercial center in the heart of the city, which is designed to be an informal place for communication and a place for adults to relax and seek identity and social isolation. NMT1312RGB was chosen for the façade ceiling, with a huge purple circle of light symbolizing fantasy, romance, light and the unknown. Several spaces are illuminated by 3000K LED strips as high, middle and low-space lighting, adding layering of the space.

## PRODUCT MODEL

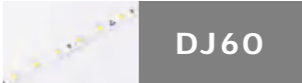

×

### NMS1217

## TAIWANT RESIDENTIAL 02

Taiwan, China

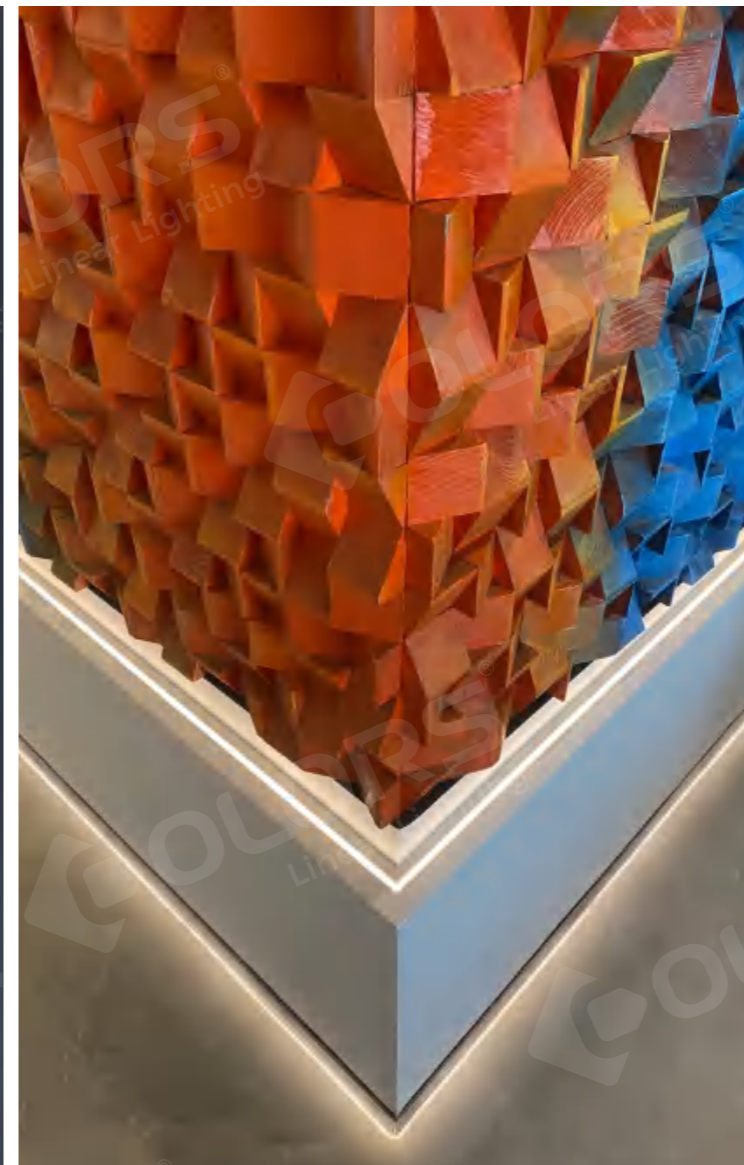

# BAOJIHU HAITANG ESTATE

Zhejiang, China

Lighting is a relatively flexible design element for the interior. Lighting in this space is definitely the catalyst of the atmosphere. Functions vary in different spaces and the role of lighting is also different, creating the space a different atmosphere and mood.

Light in living room and other public space is not in large scale but more focus on points together with lines that outlines the structure. The collision of block interlacing in space and light and shadow enriches the layering sense of space.

To avoid glare, a combination of ambient lighting and accent lighting is used to meet different lighting needs.

## PRODUCT MODEL

**NMS1217**

FUMING office space in Taiwan is divided into reception, office, meeting room, lounge, etc. In the reception space, NMS1217 and NMT1312 neon are used, extending from the façade to the ceiling with curved lines and changing RGB light. In the office and meeting room, we use the modular luminaire to form different shapes, such as square, pentagon, oval, etc. The free design of the luminaire also brings unique effect to the space.

## TAIWAN FUMING OFFICE
