# H-Track

High-voltage track system

The H-Track series is a 220V high-voltage track system compatible with spotlights, linear lights and decorative light modules. It delivers a maximum luminous efficacy of 135 LM/W and a Color Rendering Index (CRI) of 90, providing bright illumination with true-to-life color reproduction. Additionally, a dial-switch version (with adjustable color temperature and power) is available, allowing flexible light temperature adjustment to meet the needs of different scenarios.
