FREE CUTTING

COLORS
Mini cut

Cutting As You Wish*

Cut Without Limits, Precision Without Bounds
Trimmable Down to **5.95mm** Units, Unmatched Flexibility

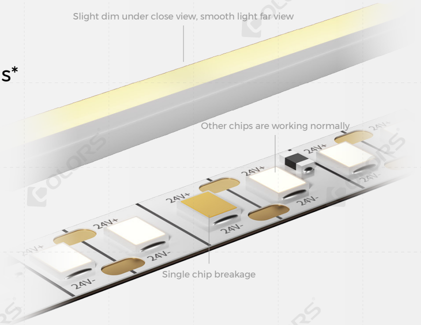
*Only white light versions 0410/0612/1010 support arbitrary cutting. For details, refer to the product specification sheet.

MINI SIZE

ULTRA-HIGH STRUCTURAL STRENGTH

All LEDs are in parallel design, worry free about the dead-leds*

Single LED failure does not affect normal illumination.

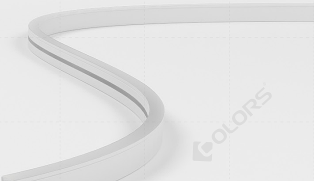


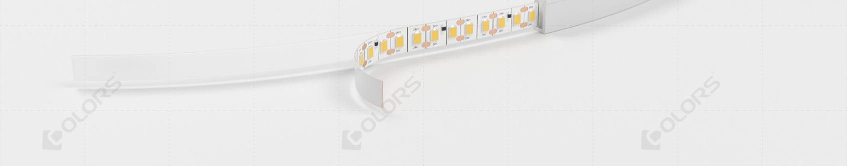
Slight dim under close view, smooth light far view
Other chips are working normally
Single chip breakage
24V+
24V-

*Applicable exclusively to arbitrary-cutting versions

Innovative structure, Anti-twist high reliability

Built in anti-tensile PC line, ultimate tensile strength
Trouble-free installation





Upgraded end cap*

IP67 same-size shield
Resistant to rain splashes and dust intrusion.

*Applies exclusively to white light characteristics of versions 0410/0612/1010

PRODUCT APPLICATION RECOMMENDATION

Gold Display Cabinet

Model Recommendation

NMS0306

NMS0306T

Recommendation Reasons:

Slim-sized neon products for easier installation.
Scenario application requires low color temperature to highlight exhibit aesthetics.
NMS0306T edge-equipped models allow profile-free recessed installation.

Accessories

15.4mm
14.1mm

Yacht

Model Recommendation

NMS1010

NMS1010T

NMT1010

NMT1010T

Recommendation Reasons:

Limited ceiling space (difficult to cut grooves/holes): requires sufficient brightness, with few fixtures to achieve basic lighting.
Moderately sized light-emitting area; high-power version meets high-brightness needs.
White light option supports arbitrary cutting – avoids dark areas, enabling easier installation.
RGB option available: suitable for ambient decoration.
Edge-equipped models allow profile-free recessed installation – convenient and efficient.
