CHILL YOUNG

meaning a relaxed appearance.

A new cultural retreat space integrating chess and tea functions, centered around the brand's original intention, featuring a cohesive design of brand identity, interior design, and lighting design. With new Chinese elements and traditional aesthetics, translucent white jade sand glass partitions, soft low-level lighting, and focused accent lighting. The spatial layout is clear, simple, and clean, creating a fully relaxed atmosphere.

Light, as a medium of flow, becomes a link between material and delicate emotions. Integrating love and art, narrating the power of space with the power of abundance.

Entering through the light, a balance between rationality and sensibility is achieved, connecting the luxurious enjoyment of the senses in the space, creating unparalleled ultimate aesthetics with a calm demeanor. The internal blank spaces, as if inadvertently prolonging the rhythm, create a pause in Shanghai, a culturally rich city.

Chengdu. CHINA

2024

Chengdu's top luxury indoor bathing and sauna leisure resort hotel , features an indoor area of 12,000 square meters and an outdoor area of over 8,000 square meters. The decor is luxurious yet tasteful. The façade is highlighted using flexible wall-washing lights and silicone neon strip, presenting the building's outline, ceiling, and surfaces through indirect lighting. The indoor lighting primarily utilizes linear light fixtures attached to the spatial structure and cabinetry, making full use of indirect lighting and low-level ambient lighting, while choosing warm color temperatures. This effectively balances functional lighting with ambiance creation, providing customers with a warm, comfortable, and deeply relaxing experience.

Kailai Hotel

Selected Cases | Hotel & Clubs

Shenyang, CHINA

2024

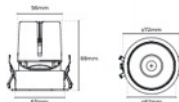

The Kailai Hotel is located opposite the Shenyang North Railway Station in Liaoning, and is a well-established comfortable hotel in the Shenyang CBD financial district. Nearly 2,500 square meters, 300 guest rooms, was renovated in the summer of 2024.

The lighting design employs an extremely minimalist approach, utilizing cost-effective Genie 2S downlights and DJ120 flex strips to create deep anti-glare accent lighting and high-level cove lighting, medium and low-level facade lighting. Thanks to the advantages of COLORS LED products, which provide pure and clean light, the design effectively showcases the hotel's clean, comfortable, and effortlessly stylish quality.

The changes in light and shadow blur the boundaries between reality and dreams. In constructing this dreamscape, we hope to infuse it with vitality and vibrant colors. Each person's unique life experiences give rise to different stories within the dream realm, and each individual's choices alter the appearance of each space. The light sources shape the dimensional aspects of the environment, and the texture of light composes the tone of the space. When immersed in it, the distinction between what is real and what is not seems less significant

2024

This project is a good example for linear lighting applied in private residential courtyards. It uses 48V ultra-long NMS1217-RGB silicone neon strips along the edges of flowerbeds on both sides of the pathway, allowing for infinite extension and easy wiring. The NMS/T1010 silicone neon strips, which can be cut to any size, are used for the edges of small-sized irregular flowerbeds for precise matching; they can also be applied to low wall surfaces, creating a unique cross-line effect.
